

## Trinity Kids Health & Wellness Plan

### Health & Wellness

**Sickness:** A child should not be in attendance of any Trinity Kids Program if they carry certain symptoms. Please notify the Children's Director/Pastor or Administrative Assistant if a child is dropped off that has one or more of these symptoms below.

- Fever (over 100 degrees)
- Vomiting or diarrhea within the last 24 hours
- Sore throat
- Runny nose (colored)
- Croup
- Unexplained rash
- Skin infections (boils, ringworm, impetigo, etc.)
- Untreated pink eye or other eye infections
- Lice
- Communicable disease
- Childhood diseases (scarlet fever, chicken pox, whooping cough, etc.)
- Anything unknown or concerning

---

*A child must be fever free for at least 24 hours without the assistance Tylenol/Motrin before being able to attend a Trinity Kids class or event.*

---

**Medication:** Volunteers will not administer any medications during Sunday's KidsTown or KidsTown Live except when life threatening situations occur. If a child needs medication during KidsTown or KidsTown Live, it is the responsibility of the parent/guardian to administer the medication. Medication may be administered during other events depending on the length of the event; this is up to the discretion of the Children's Director/Pastor.

If a child has a potentially life-threatening condition and medication may need to be given, a Medical Authorization form needs to be completed by the parent/guardian of the child and turned into the Children's Director/Pastor. Clear directions must be provided by the parent/guardian in order for volunteers to understand the administration of the medication.
